

# MUSTAFA AZAD HUSSAIN

Aspiring AI-ML Engineer

9101018658 | Email: azad83801@gmail.com | Jorhat, Assam |

LinkedIn: [linkedin.com](https://www.linkedin.com) | GitHub: [Github.com](https://github.com) |

## SUMMARY

---

Highly motivated and detail-oriented MCA 3rd semester student with a strong foundation in machine learning algorithms, and Python. Seeking an AI/ML internship to apply theoretical knowledge to real-world problems, contribute to innovative projects, and further develop skills in areas like Natural Language Processing and Computer Vision.

## EDUCATION

---

Master of Computer Application (MCA-2026) CGPA: 8.5 [The Assam Kaziranga University](#)

Bachelor of Science (BSC) CGPA: 8.29  
[Jagannath Barooah university](#)

## ACHIEVEMENTS

---

Presented a paper on "crop disease detection using unsupervised techniques." at International Conference on Data Driven AI (ICDDA2025).

## LANGUAGE KNOWN

---

- English
- Hindi
- Assamese

## CERTIFICATIONS

---

- AWS Academy Graduate – Cloud Foundation (December 2025)
- Infosys IOT (May 2025 - June 2025)
- Infosys Introduction to Apaches streaming (Nov-December 2025)

## SKILLS

---

Python, C, SQL, MongoDB, Deep Learning, Computer Vision, Natural Language Processing, Generative AI.

## PROJECTS

---

**AI-powered University Chatbot:** GenAI-based chatbot using a structured JSON knowledge base and OpenRouter API, deployed via Flask, Streamlit, and CLI to provide accurate, multilingual university information through web and API interfaces.

**Crop Disease Detection (Unsupervised Learning):** Developed an unsupervised computer vision system using feature extraction, dimensionality reduction (PCA), and clustering techniques to detect and differentiate healthy vs. diseased crop images without labeled data.

**Real-time quality control using Computer vision(ongoing):** Developing a real-time defect-detection system using CV, YOLO-based deep learning models to identify manufacturing defects from live camera feeds and enable automated quality inspection.
